

## Test Verification of Conformity

On the basis of the referenced test report(s), the sample(s) of the below product has been found to comply with the relevant harmonized standard(s) to the directive(s) listed on this verification at the time the tests were carried out.

The manufacturer may indicate compliance to only the said directives by signing a DoC himself and may affix the CE marking to products identical to the tested sample(s) if the product complies with all CE marking directives that has the product in their scope. In addition, the manufacturer shall file and keep the documentation according to the rules of the applicable directive(s) and shall consider changes of the standards as they may occur. Additional requirements, additional directives and local laws may be applicable.

**Applicant Name & Address** : Shenzhen INVT AUTO-CONTROL TECHNOLOGY Co., Ltd.  
 No.4 Building, Gaofa Scientific Industrial Park, Longjing,  
 Nanshan District, 518055 Shenzhen, PEOPLE'S REPUBLIC OF CHINA

**Manufacturing Site & Address** : Shenzhen INVT AUTO-CONTROL TECHNOLOGY Co., Ltd.  
 No.4 Building, Gaofa Scientific Industrial Park, Longjing,  
 Nanshan District, 518055 Shenzhen, PEOPLE'S REPUBLIC OF CHINA

**Product(s) Tested** : PLC

**Ratings and principal characteristics** : See Annex to Test Verification of Conformity

**Model(s)** : See Annex to Test Verification of Conformity

**Brand name** : INVT (Logo)

**Relevant Standard(s) / Specification(s) / Directive(s)** : EN 61131-1: 2003, Programmable controllers – Part 1: General information  
 EN 61131-2: 2007, Programmable Controllers – Part 2: Equipment requirements and tests  
 Low Voltage Directive 2006/95/EC

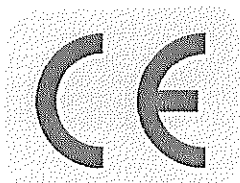

**Verification Issuing Office Name & Address** : Same as Intertek Legal Entity

**Date of Test(s)** : 08 May., 2012 – 27 Jun., 2012

**Verification/Report Number(s)** : GZ12040665-1/ GZ12040665-2

**NOTE 1:** This verification is part of the full test report(s) and should be read in conjunction with it.

This Verification is for the exclusive use of Intertek's client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this Verification. Only the Client is authorized to permit copying or distribution of this Verification. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test/inspection results referenced in this Verification are relevant only to the sample tested/inspected. This Verification by itself does not imply that the material, product, or service is or has ever been under an Intertek certification programme.

## Annex to Test Verification of Conformity

This is an Annex to Test Verification of Conformity with Verification/Report Number(s):  
 GZ12040665-1/ GZ12040665-2. The issuing office is Intertek Legal Entity as above.

### Ratings and principal characteristics

AC 100-240 V; 50/60 Hz; 35 VA (for AC models)  
 DC 19-30 V; 10 W (for DC models)  
 (For expansion modules and output load, refer to the following table)

Expansion modules	Power supply (V)
IVC1-****EN*	Connect to and get power from the main module (5V and 24V)
IVC1-***	Connect to the main module. The main module provides power supply to the logical part and the 24VDC isolated power supply board provides power supply to the analog circuit.

The Max. current of the relay output	Resistive load	2 A/ 1point, Common port for 8 A/ 4 points; Common port for 8 A/ 8 points
	Inductive load	250 V AC; 80 VA
	Lamp load	250 VAC; 100 W
	Analogue load	±10 V; ±20 mA
The Max. current of the transistor output	Resistive load	OUTPUT: 0,3 A/ 1 Point, 0,8 A/ 4 point; 1,6 A/ 8 point; The total current increased by 0,1 A for every additional 1 point
	Inductive load	Y0, Y1: 7,2 W/ 24 VDC; other: 12 W/ 24 V DC
	Lamp load	Y0, Y1: 0,9 W/ 24 VDC; other: 1,5 W/ 24 V DC
	Analogue load	±10 V; ±20 mA

### Model(s)

Main modules: IVC1-\*\*\*\*M\*\* (1st and 2nd "\*" = 10, 14, 16, 24, 36; 3rd and 4th "\*" = 06, 10, 14, 16, 24; 5th "\*" = A; D; the last "\*" = T; R)  
 IVC1-1614MAT1; IVC1-1614MAR1  
 Expansion modules: IVC1-\*\*\*\*EN\* (1st and 2nd "\*" = 00, 08, 16; 3rd and 4th "\*" = 00, 08, 16; the last "\*" = T; R; N)  
 IVC1-\*\*\* ("\*\*\*\*" = 4AD, 4DA, 4PT, 4TC, 5AM, 2AD, 2DA, 2PT, 2TC)

NOTE: This annex is part of the Test Verification of Conformity and should be read in conjunction with it.

This Verification is for the exclusive use of Intertek's client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this Verification. Only the Client is authorized to permit copying or distribution of this Verification. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test/inspection results referenced in this Verification are relevant only to the sample tested/inspected. This Verification by itself does not imply that the material, product, or service is or has ever been under an Intertek certification programme.
